Senator Ted Budd  
304 Russell Senate Office Building  
Washington DC 20510

**RE: Support to Stop the demolition of the High Falls Community Dam**

Dear Senator Ted Budd:

My name is \_\_\_\_\_ and I am a member of the High Falls Dam Supporters Organization and reside in your district. I have recently heard there is intent to demolish the High Falls Dam and development of the Deep River Trail System that is in the High Falls Community, Moore County, North Carolina. As I am in opposition to the removal of this dam, there has been little to no community outreach on the effect that this will have on a community that was built around the great falls there. There are many questions that have not been addressed as to the effects on this community such as:

- Will there be a loss in property values
- Will the water systems ability to obtain well water be accessible
- Will this project lead to the expansion of another project that may take property from owners
- Why not lead a strong community outreach effort
- Will other species of wildlife be affected including other endangered or threatened species

I strongly oppose any change that will have a negative effect on the community and the symbolic treasure dating back to the 1800's when there was a 15 ft waterfall that the community was named after. There is public money being used to support these efforts that the community oppose. How will this affect our community as a whole?

I appreciate your help and ask that you please send me a response letting me know if you can oppose or assist our community and the High Falls Dam Supporters Organization.

Sincerely,

\_\_\_\_\_
